Jim, an issue has come up on the noise review for tomorrow. We've learned that the consultant wants to come onto the site to within 50 feet of the hammer while its operating. We can't allow that for safety reasons regardless of whatever PPE is utilized. We will operate the hammer, but the only two possibly relevant points of measurement is our property line and your clients' property line, so he'll be constrained to those locations.

So far as I know, it's on. Have your people been in contact with RSG or Julian's representative. They can call Jonathan Patrick 203-673-4054 cell. I gave RSG your consultant's number. It would be good to confirm contact.

Mark -- just a follow up email to remind you I await confirmation that tomorrow at 11:30 is going to work. Our expert is driving up from Massachusetts, leaving early tomorrow morning. Thanks.

Sincerely,

Jim

Subject: Re: Julian CU Application to Chester DRB-Decision and Order on Motion for to Order Subpoenas

Mark, I have just gotten off the phone with our acoustic experts. Paul Campbell will set up monitors at the Thorsen/Kilgus residence around 11 am on Tuesday Oct. 17 and then will go to the South Quarry, arriving around 11:30 am, to record and monitor operation of the hydraulic hammer. Paul's contact number in case there is some problem is 413 427 2969. Could you provide me and Paul with the name and phone number of a person who will be on-site? I think this would be prudent if there is a need for any last minute changes, such as a rain or some other weather event.

Sincerely,

Jim
