

OPERATOR ENVIRONMENT

Komatsu WA 200-8 wheel loader

WA 200-8

New Operator Seat

A new standard, heated, air-suspension seat provides enhanced support on rough roads and dampens machine vibrations, providing a more comfortable ride for the operator. The angle of the armrest is fully adjustable for optimum operator comfort. A secondary F-N-R switch is incorporated into the standard multi-function mono lever.

Tiltable / Telescopic Steering Wheel

The operator can tilt and telescope the steering wheel to allow maximum comfort and control. The two-spoke steering wheel allows maximum visibility of the monitor panel and the forward work environment.

Low Noise Design

Operator's ear noise level: 68 dB(A)*

Dynamic noise level (outside): 104 dB(A)**

The large ROPS/FOPS cab is mounted with Komatsu's unique viscous mounts. The low-noise engine, hydraulically-driven fan, and hydraulic pumps are mounted with rubber cushions, and the cab sealing is improved to provide a quiet, low-vibration, comfortable operating environment.

** ISO 6395: 2008

Increased Cab Storage Area

The WA200-8 cab features a heated/cooled storage compartment on the right side of the cab to allow the operator to store items such as a beverage or lunch.
